

IRONMAN® Performance Gel Heel Cushions

🎯 Target Consumer:

Consumers seeking contoured cushioning around the heel area.

Consumers suffering from general heel pain, heel spurs or bruises.

✅ Recommended For:

Daily wear – absorbing shock to reduce heel pain.

Best For Use In:

Any dress, casual or athletic shoe.

Components*:

TPR Gel (dual density), Thickness: 9.38mm (3/8in)

Instructions:

Place IRONMAN® Gel Heel Cushion against the inside heel area of shoe, orange side down. For best fit, unlace shoe and allow maximum room to correctly position foot on the heel cushion. Tighten laces after foot is comfortably in place.

Care:

Hand wash with warm water. Air dry.

Features & Benefits:

- 1 **TPR Gel** Thermoplastic rubber responds with 44% energy return
- 2 **Anatomical Cushioning System** Dual density gel absorbs shock
- 3 **Slip Resist Design** Helps keep the heel cushion in place.
- 4 **1 Size** One size fits all for convenience.

One-Year Unconditional Guarantee
